

BlockBond.ai – 1-Pager MVP Snapshot

What It Is:

BlockBond.ai is a smart bond engine for DAOs to raise long-term capital using AI-scored trust & risk scoring. It simulates token bonding offers tailored to DAO governance models.

Key Features:

-  Pilot Bond Config: Token, Term, Yield, Cap
-  AI Risk Score: Smart risk logic + governance flag scoring
-  Use Case Ready: Treasury diversification, DAO incentives, ecosystem coordination
-  No smart contract needed for simulation MVP
-  Scalable into DAO tooling, dashboards, or full protocol layer

Pilot Info Example:

- Token: SAFE
- Term: 90 days
- Yield: 12%
- Risk Score: 82/100
- Cap: 10,000 SAFE
